INSTALLATION MANUAL

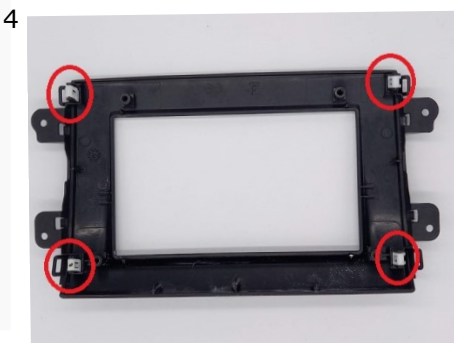

1 This is how the original dashboard looks like once removed the radio panel.

2 Remove the OEM Air Vents. Remove and save the 4 screws circled in Red. Disconnect all cables and remove the OEM radio from the radio tunnel.

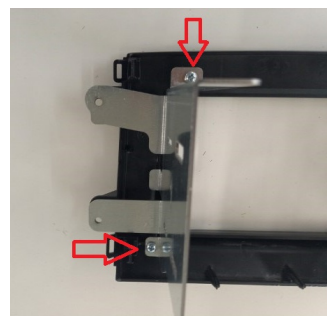

3 Remove and save the 4 clips circled found to the back side of the OEM fascia plate.

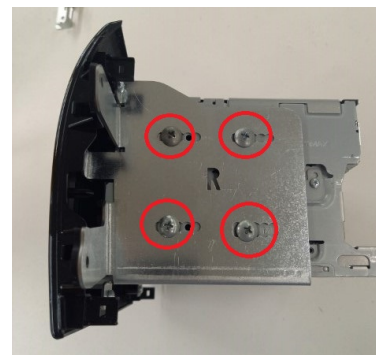

4 Apply the 4 clips removed previously as shown in the picture.

5

5 Fix the metal brackets to the fascia plate by tightening the 4 screws (2 per side) supplied in the kit.

6

6 Fix the fascia plate to the radio by tightening the 8 screws (4 per side) supplied in the Radio Kit

7

7 Connect all cables and verify their functions, tighten the 4 screws saved in the step n°2 as indicated in the picture.

8

8 Reassemble all components following all steps backwards. This is the final result.
