CAM-IV1-AD

Reverse Camera Add On Interface
For select Iveco vehicles

APPLICATION:

Iveco Daily (6th Gen)

2008 - 2015

Allows for the addition of an aftermarket reverse camera to the original vehicle head unit. This harness works with vehicles that feature IVEConnect systems.

DISCLAIMER:

Prior to Installation

Read the manual prior to installation. Technical knowledge is necessary for installation. The place of installation must be free of moisture and away from heat sources. Please ensure you use the correct tools to avoid damage to the vehicle or product.

Connects2 can not be held responsible for the installation of this product.

Technical Support

Connects2 want to provide a fast and suitable resolution should you encounter any technical issues. With this in mind, when contacting Connects2, try to provide as much Information as possible. This will speed up the process and help us to help you.

Please use our dedicated online technical support centre: support.connects2.com

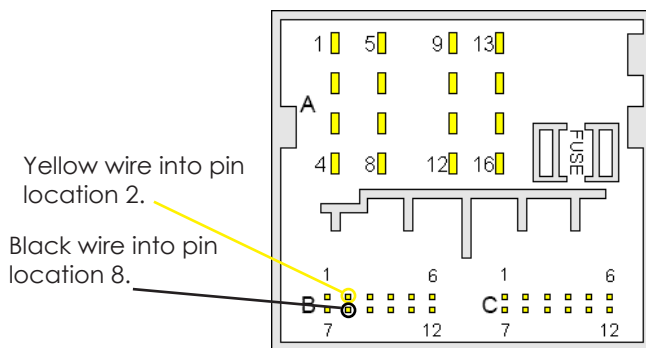

- Reverse Camera Add On Adapter
- Instructions

INSTALLATION

1. Remove the vehicles head unit (located at the bottom of the dashboard) by following the manufacturer's instructions/guidelines. Once removed, disconnect all the power connector.

2. The CAM-IV1-AD has a yellow wire and a black wire. The yellow wire needs to be inserted into pin location '2'. The black wire then needs to be inserted into pin location '8' (see the diagram below).

Note: if these locations are already populated on the reverse of the connector, then the pre-existing wiring will need to be removed in order for the camera add-on process to work.

4. With the aftermarket camera installed, connect this to the yellow RCA of the CAM-IV1-AD.

5. When done, connect the power and start the vehicle. Navigate to '**APPLICATIONS > UTILITIES & VIDEO CAMERA**' from the home screen. Select '**AUTO**' and ensure '**Camera 1 Automatic Mode**' is highlighted. Proceed to test the reverse camera's functionality. Once happy, reassemble the dashboard.
