- Reverse Camera Add On Adapter
- 2x Male Bullet Connectors
- Instructions

INSTALLATION

1. Remove the vehicles head unit by following the manufacturer's instructions/guidelines. Once removed, disconnect all the power connections including the 40-pin connector.

2. With the aftermarket camera installed, connect the cameras RCA to the yellow RCA of the CAM-TY4-AD.

3. Connect the red & black 6V wires if the camera being used needs an 6V power supply.

Note: this step only needs to be carried out if you are installing a camera that needs a 6V power supply.

4. Attach the 40-pin specific connectors to the back of the head unit and to the OEM vehicle connection. When done, connect the power and test the reverse camera's functionality before reassembling the dashboard.
