- Brake light camera with fixed 30cm cable to 4 pin locking connector
- 10m Female to Male 4pin extension cable
- Instructions

INSTALLATION

1. Remove the third brake light from the vehicle and unplug the connection cable
2. Connect the 4pin connector from the CAM-VW10 to the 4pin connector on the extension cable, then attach it to the vehicle taking care not to trap any cables
3. Connect the Black wire to a suitable ground and connect the Red wire to the reversing light circuit or an interface which provides a reverse signal
4. Connect the camera to the display screen via the Yellow RCA connector and ensure that the image is displayed correctly
