- Brake light camera
- 10m Male to Female 4pin extension cable
- Instructions

INSTALLATION

1. Remove the third brake light from the vehicle and unplug the connection cable
2. Connect the CAM-VW8 4pin connector to the 4pin connector found on the extension cable, then attach it to the vehicle taking care not to trap any cables
3. Connect the Black wire to a suitable ground and connect the Red wire to the reversing light circuit or an interface which provides a reverse signal
4. Connect the camera to the display screen via the Yellow RCA connector and ensure that the image is displayed correctly
