9 Connects2 Updater tool is now open and ready to use. Simply follow the on screen instruction or our C2 Updater program instructions to update your SWC2 interface.

C2 Updater

Updating the Interface

A USB A/B (Printer Cable) is required to connect the C2 reflasher to your computer.

- 1 Open the C2 updater tool. Ensure you have a working internet connection. Click 'OK'.

- 2 Connect the C2 upfater tool to your computer. Use the lead labelled 'PROG LEAD 2' initially. The box in the top left hand corner will show you when the computer has detected the C2 updater tool.

- 3 The C2 updater will check the current software installed and check to see if there is a newer version available. Click 'OK' to update the interface. If no update is required, a message will be displayed.

- 4 If the message 'Could not communicate with the interface' is displayed, you may need to use the lead labelled 'PROG LEAD 1'. Click 'Manual' if the bottom left corner of the screen.

- 5 Enter the 13 digit number on the sticker on the back of the Connects2 interface. Click 'Check'.

- 6 The updater tool will check to see if the correct lead is being used. If the correct lead is being used this will also check the software.
